Yes, pages 6-8 of the attached. I trying to seek clarification about whether it was actually previously scored or not. Brian may have been wrong about that. Hopefully, I will know the answer to that by our call. I would like to talk to you as well even if it is separate from the technical call. I have some questions about your letter and want to discuss next steps.

Pages 6-8 pf the attached? I thought someone at our meeting say that Brenda Cook had scored the site twice, and the first time it didn't qualify for NPL listing.

Mike Daigle is flexible next week for a call. I am available 9/14 p.m.. 9/15/ a.m. and 9/16 all day, if you think counsel should will be on as well.

Bill:

There is a brief discussion in the HRS package on pages 6-8 that discuss the history of investigations. I hope this helps.

Amy,

I have a note in to TRC to see about a call this Friday or next week.

I did receive a link from Greg Rome but have not gone through it all yet. Do you know offhand if the initial ranking of the site is included in those materials?

I didn't receive a response from you regarding possible conference call times. I wanted to make sure you received my email. Please let me know when you are available to discuss next steps regarding the Delta Site. Do you receive the HRS package from Mr. Rome?

Amy,

Do you have some time this week or next to discuss this Site, Chromalloy's response (and Dean's), and where we go next? Either as part of that call or separately we would like to get Mr. Daigle together with the project manager and Philip Allen to discuss the data etc.

Also, I don't see a reply to my August 7 email asking for a blank "form" of 104 request for financial information. We had a short call with their group today and Mike Daigle of TRC. Greg Rome acknowledged that they have received some "financial interrogatories" from EPA, so it remains uncertain whether they will participate with us going forward.

Subject: Scorpions report for Delta Shipyard

Attached is the SCORPIOS Report. It includes costs through 4/4/2015 which includes a few more costs than the past costs included in the AOC.
